

iFlex Q

iFlex Q takes the guesswork and stress out of customer queuing. Simply check your customer's group size, quote them the current wait time, hand your customer a pager and they can enjoy themselves in the bar, on the boardwalk or in the surrounding shops. When your customer's order or table is ready, simply page them through the iFlex Q console to let them know.

FEATURES AND BENEFITS

- Easily manage your food & seating waitlist in real time
- Simple to use touch screen system
- Choice of pager options to suit your budget
- Employ multiple consoles for greater flexibility
- Extended range via Wi-Fi
- Full reporting of wait times and response times
- SMS option to mobile phones available

HOW IT WORKS

The iFlex Q system provides an easy way to manage your customers wait experience and provides inbuilt escalations to alert you when wait times start to exceed acceptable times.

WHY YOU WILL CHOOSE BOOMERANG PAGING

By using the iFlex Q System, your customers no longer have to hear just a beep. Now they can have a voice message, such as "Thanks for waiting, your table is now ready". The Voice Pagers can also notify customers with a beep, flash and vibration.

FEATURES AND BENEFITS

- Custom Voice Messaging
- LED Numeric display - Make pager numbers what ever you like.
- Programmable voice messages - Change your message via PC software.
- Numeric paging – Send your customers a numeric message for use with locations or orders.
- IP54 Rated against water / dust intrusion.
- The Rubber Bumper makes the unit more rugged and helps protect it.
- Create your own custom Advertising Insert to promote your events or specials.
- Arguably the Lowest replacement cost pager on the market today.
- Wall mount or bench stand

YES! YOU CAN SEND SMS TO CUSTOMER'S MOBILE PHONE FROM IFLEX Q SYSTEM
